1. Above consumption includes clubhouse, swimming pool refilling, car wash & public rest rooms.

2. Treated water recycled for flushing not included above.

3. Refer pages 41, 42, 44, 46, 48, 50, 52, 53, 54, 55, 56, 57, 58 for STP treated water details.

4. In Sarovar, Metro meter not working properly.

5. In Aura, Metro meter not working.

6. In CyberLife, average water consumption per day was high due to metro water supplied to labour colony.

7. In Elina and Kanopy Tulip, average water consumption per day was high due to metro water was used for garden & flushing.

8. In Elixir, average water consumption per day was high due to bore water was used for garden in addition with STP treated water.
