APARNA CYBER LIFE,  
NALLAGANDLA,  
HYDERABAD.

Dear sir,

We would like to inform you that the above lift installed with ARD (Automatic Rescue Device) unit. If the 3 Phase power supply goes OFF, this ARD unit will operate the lift in to nearest floor with the help of battery voltage. In this regard we have to maintain these Battery's voltage in fully charged condition.

Here we advice/suggestion to keep lift main power supply always ON condition. Please don't switch OFF the lifts main supply. If you switch OFF the lift power supply, the batteries charging voltage will be discharged & may failed. If the batteries failed ARD operation will not be worked. The defected batteries will be replaced with chargeable basis.

This is for your kind information and Keep the lift Power supply always in ON condition.

Thanks & Regards.

G.Sreenivas Rao.
